Subject: AntiTrust settlement

Dear sirs,

As a professional in the high-tech arena for a decade, I am very disappointed with your recent decision to cave in on the Microsoft anti-trust suit. You have proven that they have improperly used their monopoly to inhibit competition, and that they are not above lying and introducing false evidence into a court of law. Furthermore, they have a history of reneging on previously negotiated settlements - and there no real teeth in this agreement to force them to obey the law.

I strongly dissapprove of this settlement and would rather see fundamental changes at Microsoft that would allow free competition.

Sincerely,

Drew McCormick
Product Marketing Consultant
